MORALE OF CREWS: Excellent

INJURIES: VA crewmember had a reaction to a bee sting. He is alright!. An Epi-pen was used on him in the field and he was transported by the EMTs to the ER, treated and released to light duty for 2 days.

MESSAGE:

Bee stung VA crew had already requested to be flown home after his 14th day for a medical appointment he did not want to change. We discussed his bee sting reaction today, the mandatory light duty for two days (which would put him going back in to the crew on his 13th shift day...), the fact that the crews are encountering bees and yellowjackets in the area they are working, and that he doesn't want anything to interfere with his medical appointment (i.e. consequences from another bee sting...). We concurred that the best thing was to get the demob request in now for him. We made a request that he demob for non-emergency medical reasons on Saturday 8/24. Demob will contact me as soon as they hear something. Crewmembers his family would pick him up at the airport. He requested to fly in to Tri-City airport, Bristol TN.

VA CRWB will submit the demob request tomorrow for his other VA crewmember to demob on his 14th day 8/27 and travel 8/28 home.

We will coordinate with all three incidents the crews are on to make certain their extensions are processed and that the incidents recognize that the 21st day for all crews is September 2. We talked with the Lolo Complex IC tonight, where the VA and TN crews are, about their extension. He will sign and have it faxed to Northern Rockies Coordination Center for further processing tomorrow.
